

**WINGS OF LIFE**

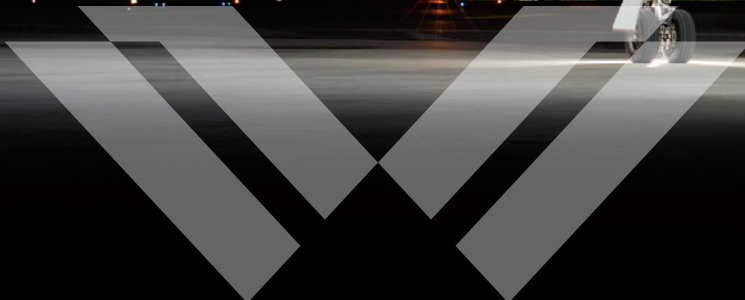

**OUR SERVICES INCLUDE**

Worldwide Air Ambulance

Airline Stretcher Service

Air Medical Escorts

Travel Companion

## **BEDSIDE-TO-BEDSIDE SERVICE**

Wings of Life air ambulance provides bedside-to-bedside medical transportation services, including ground ambulance.

Domestic and international medical flights can be arranged locally in a legal and professional manner. We can also assist family members in setting up travel arrangements and hotel accommodations, in addition to working directly with your insurance company.

Wings of Life provides air and ground transportation with the most advanced equipment available. Using modern technology, global positioning systems, and premier medical equipment, our patients are securely transported both domestically and internationally.

We are available 24 hours a day, 7 days a week with fast airborne response after authorization and approval.

#### **ABOUT US**

Wings of Life was established in response to an overwhelming demand for high-quality, personalized, and cost-effective air medical transportation service. Our priority is to provide the highest quality patient care.

We strive to be the premier provider, delivering high-quality, cost-effective air ambulance transportation.

#### **PROFESSIONAL MEDICAL TEAM**

Our medical crews consist of highly trained professionals with extensive experience in both domestic and international patient transportation.

Crew members must meet rigorous patient care and safety standards and are capable of dealing with any in-flight emergency.

All our medical team members are trained in altitude physiology along with ACLS and PALS certifications. Higher level care is available for ventilator, VAD, transplant, and other special need patients.

#### **SPECIALIZED SERVICE**

Wings of Life worldwide services include transportation via private or commercial aircraft. Patients deemed stable enough can arrange commercial airline stretcher service, air medical escorts, and travel companions.

We provide worldwide assistance for repatriation of patients, helping to schedule medical or surgical consultations. Patients who need specialized hospitalization at facilities throughout the United States, can count on Wings of Life to coordinate all aspects of their transportation.
